

This audit is meant to help your management team evaluate how your Adverse Behavior Program is being practiced in your facility. The questions are intended to be reviewed by your management team to determine if any changes to the program are necessary.

Assessment Questions:

1. Do employees know where behavioral care plans are stored?
2. Do employees know how many and which individuals have a behavioral care plan in place?
3. Are the staff members aware of behavioral triggers for each client?
4. Can employees outline de-escalation methods that are in line with each individual's behavioral care plan?
5. Are staff members implementing the physical and verbal techniques they learned in training?
6. Are staff members aware of your organization's protocols for communicating behavioral changes and changes to the behavioral care plan?
7. Are there any opportunities for improvement? If so, list them.

After discussing the answers with your management team, what steps will be taken to correct any deficiencies or to improve your adverse behavior program?

- Change to policy
- Change to behavioral care plan
- Individual staff training Name(s) of staff member(s): _____
- Other (Please describe)
